

Target Tracker: Formative and Summative Assessment

Formative Assessments are entered weekly on Target Tracker stating if pupil has met 'I can' Statements. These are highlighted red if they are still a target, blue if they have been achieved and gold if they have been securely embedded.

Class teachers use these Formative Assessments to inform future planning, ensuring 'I Can' Statements are repeated if they haven't been met. Through Formative Assessment, teachers can plan challenging lessons.

Summative Assessments are entered on a 6 weekly cycle, based on Formative Assessments, Teacher's knowledge and work evident in pupils' books.
