

Recording and Monitoring Physical Intervention/ Restraints

All incidents where physical intervention and/or restraint has been necessary, and is not part of a physical management programme, should be recorded and need to be reported to the Headteacher.

A written record (see below) will be required of any occasion when a physical intervention and/or restraint is used. This may help prevent any misunderstanding or misrepresentation of the incident and it will be helpful if there is a complaint. Written reports should be recorded at the earliest opportunity but within one working day after the event.

The child's parent/carer must be informed when physical intervention has been necessary by, at the latest, the end of the working day though preferably by the end of the morning or afternoon session in which the incident occurred.

The use of physical interventions should be monitored in order to help staff learn from experience, promote the well-being of children in their care and provide a basis for appropriate support. In particular, this should cover the frequency with which they are used in relation to the staff and pupils involved.
