Wednesday 1st July 2020

Dear Parents/ Carers

I hope this email finds you and your family well.

We are now into the beginning of July and the last three weeks of the summer term before we close for the long summer holidays. It is therefore really important that if you have not as yet sent your child back to school that you consider doing so. Your child will benefit greatly from being able to see some of their friends, teachers and other staff and generally being in school even if it is only for a few days. We are now open to all children from all year groups except part time nursery, so if you want your child to learn, run around and enjoy being in school for the last few weeks then please call the school office as urgent to register them. We have 100 children now registered and it is lovely to see so many happy children, hear their laughter and watch them running around enjoying learning together and playing with other children.

You will soon be receiving, by email, your child's end of school report and an invitation to have a telephone consultation with your child's class teacher, so please look out for the parentmail with further information about this.

In the meantime we are planning for September, with lots of exciting opportunities for your children to excel in their primary education. Our Forest School development is really taking off and if you get the opportunity to walk, jog, cycle or drive past the school field then you will see the transformation taking place. We are working on lots of other fantastic projects that include dedicated space for music and drama and a beautiful library full of brand new books! We have also installed outdoor gym equipment in the back playground, put new safer flooring down in the front playground where the grass was, bought scooters for the children to use during play/lunch times and we are looking at putting in some more play equipment for the children over the summer onto the school field. We are super busy!

If you have any friends or family with children who are looking to join our amazing school then please call the office as we do have a few spaces available in all year groups for a September start, and the more children we have the more funding the school receives which means all children benefit!

All best wishes and as always, keep safe.

Yours sincerely

Julie D'Abreu
