Easter Fun 2024 | 1

Activities for children and young people

Inclusion rating

This year each of our activities will have a coloured rating of what level of support they can provide for their participants. If you/your young person needs additional support, please use the guide below to better identify what level of support activities can provide. If unsure, please contact the provider for more information.

Key: Inclusion

- **Blue rating:** Sessions are open to all, and we can support individuals needing some additional assistance and adapt the activity accordingly, while expecting independent participation for most of the activity.
- **Green rating:** Session are open to all, and we can provide support to individuals with higher levels of need, although one-to-one support is not available. We strive to make reasonable accommodations to foster inclusivity.
- **Yellow rating:** The activity is designed to offer tailored support to individuals with high levels of need.

YOUR CHILD'S HEALTH AND VACCINATIONS

Vaccination protects children and young people from many serious illnesses and can prevent long absences from school. Ensuring your child is vaccinated means reducing the spread of disease to other vulnerable family members and people.

Measles cases are rising in London

If you or someone in your family who is un-vaccinated catches measles, you are likely to feel very poorly and be off school or work for around three weeks. MMR vaccination is the best way to prevent measles."

Make sure your child is up-to-date with their vaccines.

Check their red book!

- At 3 years and 4 months, your child should have had both the 4-in-1 (pre-school) and second dose of the MMR (measles, mumps, and rubella) booster to ensure full protection.
- If your child has missed any vaccines, they have

been vaccinated in another country, or you are unsure if your child is able to have certain vaccinations, speak to your GP who will advise you on what vaccines your child needs to stay safe.

- Your child will also receive the annual flu vaccination in school

At secondary school the below vaccines are given to children:

- The human papillomavirus (HPV) vaccine is given in Year 8. It is highly effective at protecting against some cancers, such as cancers of the cervix, mouth and throat.
- The 3-in-1 teenage booster and meningococcal ACWY vaccine are given in year 9. These boost protection against; tetanus, diphtheria and polio and protect against meningitis and blood poisoning (septicaemia).
- Your child may also receive the annual flu vaccination

For more information about childhood vaccinations visit www.haringey.gov.uk/childhood-vaccinations

School vaccinations are administered by Vaccination UK. Please complete the consent form when you receive it, to allow your child to receive the vaccines and stay protected.

CHILDHOOD AND SCHOOL-AGED VACCINES ARE:

- Free
- Safe – all vaccines are thoroughly tested to make sure they will not harm your child
- Do NOT cause autism – studies have found no evidence of a link between the MMR vaccine and autism

Haringey
LONDON
