

# Attendance Ladder

The more time your child spends in school, the more time there is to learn. For every day your child is absent, over **6 hours** of instructional time is lost.

For some parents, **90%** may seem like an acceptable level of attendance, but the reality is that **90%** attendance means that your child will miss half a school day each week or **19 days** of school during the school year. That is nearly **4 school weeks**, which is very concerning.
